Experience

Bachatt 2025-07-16 – 2025-06-30
SDE South West Delhi, Delhi

- Developed and maintained key features for a high-traffic web application using Java and Spring Boot, resulting in a 20\{}% improvement in user engagement.
- Collaborated with a team of engineers to design, implement, and test RESTful APIs for seamless data exchange between internal services.
- Implemented unit and integration tests to ensure code quality and prevent regressions, contributing to a 15\{}% reduction in production bugs.
- Participated in code reviews, providing constructive feedback to improve code maintainability and adherence to coding standards.
- Utilized agile methodologies (Scrum) to deliver features on time and within budget, actively participating in sprint planning, daily stand-ups, and retrospectives.
- Troubleshooted and resolved complex issues in production environments, utilizing debugging tools and log analysis to identify root causes and implement effective solutions.
- Contributed to the improvement of the CI/CD pipeline by automating deployment processes and integrating automated testing, reducing deployment time by 30\{}%.

Education

DTU 2025-07-22 – 2025-07-02
BTech in CSE CGPA -9.07
